**(4) Your qualifying rate will be based on your credit score and loan term.**

(5) APY (annual percentage yield) means a percentage rate reflecting the total amount of dividends/ interest paid on an account based on the dividends/interest and the frequency of compounding for a 365 day period. The dividend rate and annual percentage yield (APY) may change at any time, at the discretion of the BOD. Certificate rates are fixed for the term of the instruments, unless otherwise disclosed. Dividends rates are computed using the daily balance method, which applies a daily periodic rate to the full amount of principal available in the Account each day. Your savings are federally insured to at least \$250,000 and backed by the full faith and credit of the United States Government.
